Testing Mnemonics and Techniques

CRUSSPIC STMPL

QUALITY CHARACTERISTICS

- Capability, reliability, usability, efficiency, maintainability, portability, performance, installability, compatibility, interoperability, security, scalability
- http://bit.ly/stmpl-m

RIMGEA

BUILD ADVOCACY

- Replicate & isolate it, maximize it, generalize it, internalize it, and say it clearly & dispassionately
- http://bit.ly/rimgea-m

FIBLOTS

MODEL WORKLOADS/PERF. TEST

- Frequent, intensive, business critical, legal, obvious, arithmetically risky, stakeholder mandated
- http://bit.ly/fiblots-m

DVLA PC

API MAINTAINABILITY

- Diagnostic, versioning, logical, accessibility, composable, consumer
- http://bit.ly/dvlapi-m

WWWHWKE

REQUIREMENTS ANALYSIS

- Who, what, when, where, why, how, knowledge, experience
- http://bit.ly/wwwhwke-m

MR Q COMP GRAB BGR

EXPLORATION & TACTICS

- Modeling, resourcing, questioning, challenging, elaborating, validating, touring, backtracking, conjecturing, recording, reporting
- http://bit.ly/mrqcomp-m

MCOASTER

REPORTING

- Mission, coverage, obstacles, audience, techniques, environment, risk
- Test risk by/mcoaster-m

FEW HICCUPPS

CONSISTENCY

- Familiarity, explainability, odd, image, comparable, products, history, user, degrees, worked, purpose, causes
- http://bit.ly/fewhiccupps-m

PAPAS BE @ SEO

API FUNCTIONALITY

- Paging, authentication, parameters/query strings, transactions, security, schema, error handling, rate, inter, cider
- http://bit.ly/papsi-m

FCC CUTS VIDS

TOURING

- Feature, complexity, claims, configuration, user, capability, scenario, variability, interoperability, data, structure
- http://bit.ly/fcccutsvids-m

RCRCRC

REGRESSION TESTING

- Recent, core, risk, configuration, repaired, chronic
- http://bit.ly/rcrcrc-m

PAOLO

DEVICE ORIENTATION

- Portrait, rude, object, landscape, overlay
- http://bit.ly/paolo-m

SCIPOUT

TEST STRATEGY

- Structure, function, data, interface, platform, operation, time
- http://bit.ly/scipout-m

SPIES

INTERNATIONALISATION

- Special characters, platform, input limitations, error messages, special events
- http://bit.ly/spies-m

DEED HELP OF

API CONSUMABILITY

- Domain specific names, samples, easy to learn, examples and at, precise, clear, and hi readability code, images of least astonishment
- http://bit.ly/api-m

GRATEOD SCRIPTS

TEST STRATEGY

- Goals, risks, approach, methods, environments, spreadsheets, ample, coverage, models, resources, information needs, non-relation, agent, care, risks, configuration, spanned, chrome, schedule
- http://bit.ly/grateodscripts-m

MUTI

TESTING

- Market, users, stakes, information, implementation
- http://bit.ly/muti-m

GO DARE—M

TEST PLANS

- "Go for goals", deliverables, activities, resources, estimates, represents balance, milestones
- http://bit.ly/godearm-m

SEED MATALI

GUI STEP AUTOMATION

- Synchronize, explicit, extendable, number of statements, types of statements, log, investigate, then check test after a spreadsheet
- http://bit.ly/seedmatali-m

HFECTRAS

PERF. TEST SPECIFICATION

- Investigation of, validation of, risk-based or, environment imposed, time earlier, resource, consumption under, integrated or, threeful conditions
- http://bit.ly/hfectras-m

CCD IS FARL

PERF. TEST CORE PRINCIPLES

- Context, criteria, design, install, script, execute, explain, report, decide
- http://bit.ly/ccdsfarl-m

FAILURE

ERROR HANDLING

- Functional, synchronization, log, all, recovery, regional
- http://bit.ly/failure-m

DOPELLING GUN

MOBILE APPLICATIONS

- Communication, orientation, platform, function, interface, gestures, guidelines, policies, applications
- http://bit.ly/dopellinggun-m

ICECOVERMAD

API TESTING

- Integration, consumers, response, operations, commands, error handling, functionality, serialization, definitions
- http://bit.ly/icecoverm-m

I SLICED UP FUN

MOBILE APPLICATIONS

* Inputs, store, location, interactions/interruptions, communication, ergonomic, data, platform, function, user scenarios, networks
* http://bit.ly/slicedfun-m

PROOF

SESSION BASED TEST DEBRIEF

* Past, results, obstacles, outlook, feelings
* http://bit.ly/proof-m

SPIFFY

MICROTEST

* Small, precise, isolated, fast, frequently run
* http://bit.ly/spiffy-m

CIOTEST.D

PROJECT ENVIRONMENT

* Customers, info, dev relations, team, equipment & tools, schedule, test items, deliverables
* http://bit.ly/titem-m

SACKED SCOWS

LEARNING

* Creation place, reflection, systematic, cognitive, savvy, knowledge attacks knowledge, experiment, disposable time, stories, compelling ideas, other minds, words and pictures, systems thinking
* http://bit.ly/sackedscows-m

DUFFSSCRA

TEST TECHNIQUES

* Domain, user, function, flow, stress, scenario, claims, risk, automatic
* http://bit.ly/etsm-m

SLIME

TASK ORDERING

- Security, languages, requirements, measurement, editing
- http://bit.ly/slime-m

TERMS

TEST AUTOMATION

- Tools & technology, execution, requirements & risks, maintenance, security
- http://bit.ly/terms-m

RSTLLL

SMS TEXT APPLICATIONS

- Reply, sender, timestamps, list, links, unsubscribe, region
- http://bit.ly/rstll-m

CRUMBS

TEST AUTOMATION

- Confirmation, gov, criteria & completeness, risk, robustness & maintainability & usability, functionality & minimal effort, intent & hard, test value
- http://bit.ly/crumbs-m
